

## **WANTED**

### **Host Families**

**Would you be interested in hosting a Skagerak student next academic year?**

Every year, new students join the Skagerak International School from different parts of Norway, as well as from abroad. Naturally, some parents are anxious to find a safe and nurturing environment for their 15-16 year old teenagers. Leaving home for the first time to go away and fulfill their dreams of a good education can be a challenge, both for the parents and for the students. Our school would like to help them in this next step.

Over the years, our school community has had many good host family relationships. The students often remain in contact with "their" families many years after graduation. In general, we find that Skagerak students are ambitious, conscientious and hardworking; however, they still need rules, guidelines and reassurance to cope with their lives.

The students would need their own rooms and would be part of your daily life as a family member.

Please start to consider being a host family from August 2016. We are now in the process of writing guidelines that we will soon post on our website. Many students are waiting to hear from us, telling them that we have succeeded in finding their host family!

If you are interested or you feel you need further information, please contact Elisabeth Norr at the following phone number: 91 32 71 81.

Mr Kjeld-Jørgen Glittenberg  
Principal
