

"**Art for a Cause**" aims towards collaborating with NGOs and volunteer organizations to collect donations for areas around the world facing global issues, by making and selling artwork.

This is part of my initiative towards CAS [Creativity, Action and Service]. A percentage of the commissions and artworks sold are contributed to different causes. To date I have donated to **2018 Kerala floods, The Memory Project**, and **CRPF** (Family Welfare Association for Pulwama attack).

As of now I am working towards contributing towards **HATCH** (<https://www.hatch.blue/>) and **NATUR OG UNGDOM** (<https://nu.no/>)

I wish to use **Art for a Cause** to help contribute to and support any impactful social cause around the world.

Capturing the positivity, beauty or simple joys of life and nature are the main subjects of my paintings. It is targeted to all age groups. The work is executed using vibrant colours, impressionistic style, incorporating abstracts in the medium of water-colour on paper and acrylic on canvas.

Tools for painting – Brushes, Painting and Pallet Knife, Sponges.

To reach out to more people I have been thinking of having an exhibition for quite some time. Sandefjord Bibliotek very kindly accommodated my request. My artwork, as part of the solo exhibition of "Jill's e-gallery", is there from March 16th, 2019. Sandefjord Bibliotek has also offered to extend the exhibition until April 2019, so that's great news!

I cordially invite all from the SKAGERAK community, to come with family and friends, who have an interest in art, to visit the Sandefjord Bibliotek.

Thank you,

Shreya Sen
